A very special  
person who I will  
always remember. All  
times we have shared  
together, mean a lot and I  
hope that you won't forget them. Just  
like that you were and  
will always stay like you are and  
we will always be the same. You and I  
have always stayed together since the day we  
first met. We have  
just had to go our separate ways.

Donna,  
To start off with, I would like to say it has been nice going to school with you this year. After all the trouble I'm glad we finally became best buddies! I've said this many times before, but once again I'd like to say, you're the best friend I've ever had. We've had our ups & downs as you have said but it has held out. I guess that's true friendship. We've had many good times together and a few bad. But I hope the bad are over. In the near future, I hope we can have even more fun than we've had already and that's a good bit!  
The times we've shared have been many and it seems those times we were with very special people. The future holds a lot for you and I'm sure its a good one. In life, I've searched for a friend with good qualities or characteristics. You seem to be one of the few I've found with good traits. You've got a great personality and a very understanding person, maybe that's why its so easy to get along with you, but any way you're my best friend and will be forever. I want to wish you all the luck in the world with everything and I also hope you get the best life has to offer. Love ya,

Rhonda

## Students Speak Out

Matilda Davis

### Questions:

Now that you are finally a Senior, tell us what school has meant to you these past 12 years?

### Answer:

Well, to start off with, if I had not gone to school, where would I be today? I've learned how to make friends with the black and white students alike and most of all how to get along with teachers. I am always going to remember the sweet old days at Courtland High School.

JoAnn Reding Brackin

### Question:

Since you are a married student, how do you do your school work and take care of your home also?

### Answer:

I try to cook when I get home after school. After I cook, I clean the house and then I try to study while I am watching T.V. If I don't study then, I study before I go to bed.

Treasurer - Charlotte Reding, (Not pictured, Secretary - Teresa Young).

This year the Junior Class has been very busy sponsoring a variety of fund-raising projects. They have held orange, candy, poster, and Christmas candle sales campaigns. All proceeds went to the sponsorship of the annual Junior-Senior Prom. Big plans were underway for the event to be held on April 1, 1977, at the Joe Wheeler Lodge. This is always a gala affair, thanks to the hardworking Juniors.

## What's Your Opinion?

Donna Coffey

Question:

What does it mean to you to be the drum majorette of the Courtland High Band and in what ways do you think our band could be improved?

Answer:

It means a lot of time and hard work, during and after school. It means meeting new people and getting to know them. It gives me a great morale to meet new people. Most important it gives me a special feeling of pride knowing I can lead our band. I really think our band could improve a lot more if more students got involved it could be the most fascinating band around, which I think it already is!

Patricia Deloney

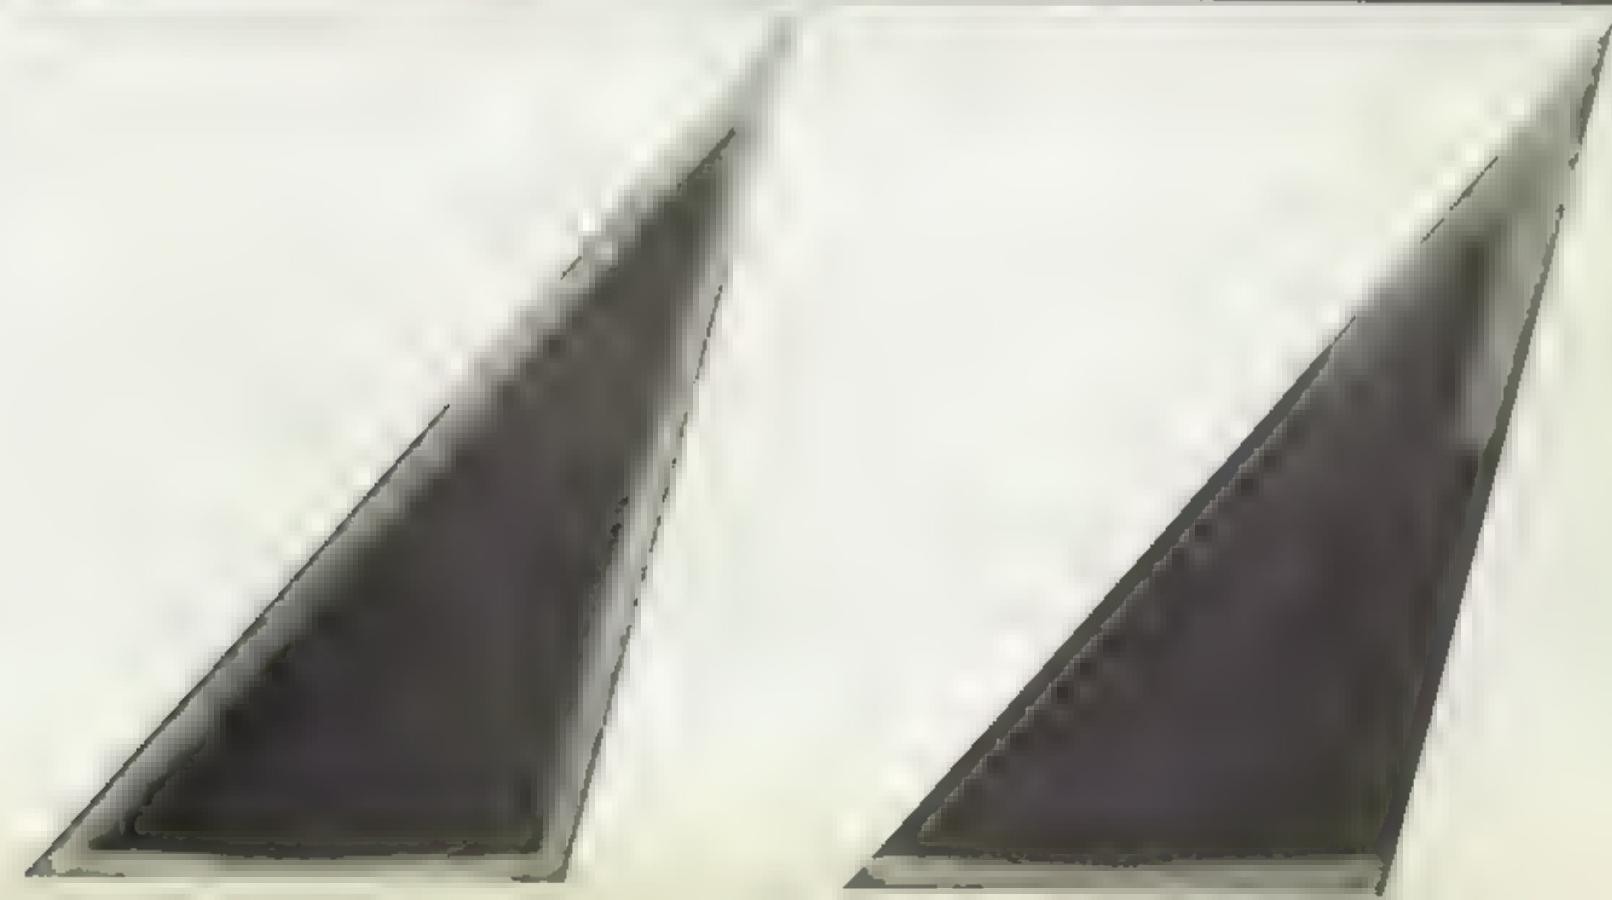

Question:

In your opinion do you think schools should be integrated such as Courtland High or do you feel blacks and whites should be in separate schools?

Answer:

I personally have nothing against the integration system, but I don't feel that blacks should be forced to go with the whites or vice versa. I feel integration is to an extent an advantage, because it's helping the students to get along with others not with just the ones of their own race. In answering this question another comes into mind, "Why should the Blacks and Whites be separated?"

Jeff Williams

### Question:

In what ways do you think America will be different in the year 2000?

### Answer:

I think the year 2000 is going to be a life of easy living and a very complicated life of pushing buttons. I believe the world problems of food will be solved. I think a cure for most of the major diseases and cancer will be discovered and the gasoline we now know will be considered as gold is today.

Vera Watkins

### Question:

You are 18, when you reach the age 18, do you think you will have more freedom then, to come and go as you please than you do now?

### Answer:

Yes, because when I am 18 I hope to be in college, away from home so the things I do will be my own decision.

It is the ambition of most people to leave some footprints on the sands of time. We can name many great ones whose fame shall endure as long as man remains on this planet, for their lives have contributed much to the benefit of their fellowmen.

We can't all be great and famous, but all of us can use what time and talents we have in the best way we can to help others and make them happy. This is to leave shining footprints for someone to follow.

Question:

This is your first year at Courtland High, in what ways is it different from the elementary and junior high school?

Answer:

My first year at Courtland High is different from elementary in many ways and in some ways it is much the same. In elementary you don't have as much freedom as you do in high school. Like at break you always had to be in a certain place, in high school you go where you want. Another thing is that there are a lot more activities to go to in high school than there is in elementary. But in one way it's much the same, there are still the teachers and still the work to do.

Dana Reding

Don Hutto

Question:

If you had to make one change in this school what would it be?

Answer:

If I had to make one change it would be in the teachers attitude toward the students. I think all students should be treated equal. Be as helpful to one as the other; be as kind to one as the other; and speak no unkind words as to hurt no one's pride.

I don't think I know anyone  
(have ever known) a girl as  
crazy and stupid as you are.  
Really like (you a lot. Remember,  
all the fun times we've had to

out of school. Always remember  
the night we went riding around

and also how sick I got after  
we left. These were good times, so  
remember them all. Be sweet.

Dear,

You're one of the craziest but smart girls  
I've ever known & one of the cutest. I feel like  
a very special person in my life, now, & I'm  
through sometimes I make you like i feel  
that. I am still considerate, but in the  
end, I'm not a well girl. I don't have the will  
to get things if it costs me a little. I'm not  
the strongest & I often feel like I'm not up to par.  
There are many things I want to consider, but  
that's all off course, to, but I suppose even  
so it's better than not. I'm not angry at you, I'm  
just sad about the things I dream of now. Now,  
just to get to you. There was one time when  
you never forgot, the night before from all we  
were going to sit just like that & stamp about  
what went down. I was going to tell you what  
I'm really going they still didn't tell you what  
they were going to do. We will go to the  
zoo tomorrow. I really don't think you'll be able  
to go for being around you. We never used to speak to  
each other until now, but now it's different  
because we spent a lot of our time keeping each other  
company. Now we can just talk to each other  
when we want to. I know we could do  
more what else do I tell you. I have been doing a  
thing to a number of people this term, we do it  
together. I'm glad you might make more of your  
life. Now days, I have a boyfriend left that when I do  
to start a girl's body but we don't want to do it yet.  
Good luck in your life. I hope you accomplish  
what you want out of life.

Yours,

Jessica

Eric,  
It has been you knowing you these past  
two years, even though we haven't seen each  
other both years we did you a lot of  
fun both years but especially this year, so  
much we made & had so much trouble that  
you we could've had a lot more fun but then  
all the other time's went in much time all  
the luck in the world (good) is there's you and  
you know we'll get it together or something  
happens, but when comes a night now when you  
like you always succeed in getting us to  
think you will, because you have a warm  
and personable, you set things off  
in time I'm not see some about your looks,  
though you have a face pictures always,  
I was never kickin' about what you look like  
just fine, the way you are of the people  
yesterday, we could become better friends  
and get to know each other a lot better,  
I think we could get along, either just  
at midday for some little people in Canada.  
Best of luck in the future with all the  
good opportunities, you know who!
